

I am a supporter of low-power local radio. Here in Davis, CA we have the good fortune of having several very motivated individuals who have started KDRT-FM and it has been a wonderful addition to our media options. Please do everything possible to defend citizens rights to organize and have access to this community resource. KDRT-FM represents one of the bedrock virtues of our constitutional democracy...free speech. Thank you for your vigilance on this manner.
Sincerely, Craig Blomberg
